Company Overview

A Native-owned environmental remediation firm, dedicated to providing innovative solutions to address complex environmental challenges, with a particular focus on Hazardous, Toxic, and Radioactive Waste (HTRW) management, and specializing on Per- and Polyfluoroalkyl substances (PFAS). From initial site assessments and remediation planning to ongoing monitoring and compliance support, PCI Environmental offers a comprehensive suite of services designed to address the full spectrum of environmental challenges. Leveraging our unique combination of cultural heritage, technical expertise, and industry insight, we offer comprehensive services tailored to meet the specific needs of our clients.

As a tribally-Owned firm, PCI Environmental is uniquely positioned to provide cost-effective and innovative solutions to our clients, including federal agencies, private companies, and tribal governments. We understand the importance of building long-term relationships based on trust, integrity, and reliability.

Backed by a team of seasoned professionals with diverse backgrounds in environmental science, engineering, and regulatory compliance, PCI Environmental excels in developing cutting-edge solutions for complex environmental problems. Our experts leverage their technical prowess to deliver results that exceed client expectations while adhering to the highest industry standards.

Poarch Creek Indians FEDERAL SERVICES

ABOUT US

Poarch Creek Indians Federal Services (PCIFS) was formed by the Poarch Band of Creek Indians to support Federal agency and Department of Defense customers. PCIFS' structure includes a variety of companies that bring more than 30 years of industry-leading expertise in a wide array of markets. All companies within the PCIFS family hold a Tribally-owned Small Disadvantaged Business status and many hold SBA certified 8(a) and HUBZone certifications. Although PCIFS is comprised of multiple entities and capabilities, its core structure provides the common connection and integration that enables the collective success of all. PCIFS is a growing federal agency and defense contractor and is proud to provide innovative solutions and best-in-class service to its customers.
